

Luke Morrison

10554 W Cortez Cir, Apartment 18, Franklin, WI 53132
(815) 315-7685 | koly1999@gmail.com | <https://koly1999.github.io/Portfolio/>

Skills

- **Electronics & Soldering:** BGA soldering, through-hole soldering, surface-mount technology (SMT), electronic schematics reading, ladder diagrams, and EDA tools.
- **Circuit Design & Assembly:** Designing, assembling, troubleshooting electronic circuits and boards, soldering irons, rework stations, multimeters, oscilloscopes.
- **Technical Proficiency:** EDA software, PCB layout and design, simulations, and testing for board functionality.

Professional Experience

Engineer Technician

Advanced Ionics, New Berlin, WI | June 2025 - April 2026

- Designed and implemented custom PCBs and electrical systems for tape caster equipment.
- Built and maintained electrical test stations for high-temperature electrolytic cell R&D
- Worked cross-functionally with engineering and research teams to develop and refine new technologies and processes.

Test Engineer

Columbus Mckinnon, Menomonee Falls, WI | Oct 2024 - May 2025

- Tested and validated industrial radio equipment and electrical control panels.
- Spearheaded process improvements, saving \$250K annually.
- Adapted to varied roles—testing, programming, and repairing equipment (industrial radios, laser engravers, motor drives).

Head of Repair Department

Arachnid 360, Loves Park, IL | Jan 2021 - Feb 2023

- Diagnosed and repaired customer dart machines, addressed issues in faulty units from the production line.
- Collaborated with production to resolve product issues, contributing to product improvements.
- Assisted the electrical engineering team in soldering prototype boards and designing new electronics.

Repair Technician & Web Developer

Bisconti Computers, Rockford, IL | 2019 - 2021

- Coded websites, provided customer service, and diagnosed and repaired hardware failures.
- Specialized in repairing Apple devices, gaming PCs, and servers, earning recognition as the "Apple guru."
- Handled multiple roles, gaining diverse experience in hardware repair, customer service, and web development.

Education

A.S. in Science

Rock Valley College, Rockford, IL | Graduated May 2021

- Front-End Web Development Certificate, 2015
